

2018

10 – 14 December

National University of Singapore

Workshop on String and M-Theory: The New Geometry of the 21st Century

SPEAKERS

David Berman Queen Mary University of London
Peter Bouwknegt Australian National University
Martin Cederwall Chalmers University of Technology
Qingtao Chen New York University Abu Dhabi
Chong-Sun Chu National Tsing Hua University
Ori Ganor University of California, Berkeley
Sergei G. Gukov California Institute of Technology
Fei Han National University of Singapore
Yang-Hui He City, University of London
Noriaki Ikeda Ritsumeikan University
Branislav Jurco Charles University Prague
Neil Lambert King's College London
Kimyeong Lee Korea Institute for Advanced Study, Korea
Si Li Tsinghua University
Joseph Minahan Uppsala University
Samuel Monnier University of Geneva
Christian Saemann Heriot-Watt University
Hisham Sati New York University
Urs Schreiber Czech Academy of Sciences and New York University Abu Dhabi
Ashoke Sen Harish-Chandra Research Institute, Allahabad, India
Eric Sharpe Virginia Tech
Hai Siong Tan Nanyang Technological University
Meng-Chwan Tan National University of Singapore
Guo Chuan Thiang The University of Adelaide
Mathai Varghese The University of Adelaide
Matthew Wheeler The University of Arizona
Martin Wolf University of Surrey
Junya Yagi Perimeter Institute for Theoretical Physics

CHAIR

Meng-Chwan Tan National University of Singapore

CO-CHAIR

Fei Han National University of Singapore

MEMBERS

Neil Lambert King's College London
Hiroshi Ooguri California Institute of Technology
Christian Saemann Heriot-Watt University
Hisham Sati New York University
Mathai Varghese The University of Adelaide
Edward Witten Institute for Advanced Study
Shing-Tung Yau Harvard University

IMS Auditorium

3 Prince George's Park, Singapore 118402
